PROJECTS

Google Apps Scripts for Google Sheets | https://github.com/struelensc/google-scripts
Role: Solo Project

- Developed and maintained a collection of Google Apps Scripts designed to run on Google Sheets, providing automation and custom functionality for diverse tasks and workflows within the work environment.

- Utilized JavaScript expertise to create efficient scripts enhancing data processing, task automation, and overall workflow efficiency.

- Collaborated with team members to understand specific needs and tailored scripts to address unique business requirements, resulting in improved productivity and streamlined processes.

Compliment-Bot | https://github.com/struelensc/compliment-bot
Role: Solo Project

- A Discord bot built with discord.js that uses slash commands to compliment users. This bot is designed to run on Heroku and register commands dynamically.

- Tools/Languages: Javascript, discord.js

Social Network Backend API | https://github.com/struelensc/backend-api-social-network
Role: Solo Project

- This project was to build an API for a social network web application where users can share their thoughts, react to friends' thoughts, and create a friend list.

- Tools/Languages: Node.js, Express.js, MongoDB, Mongoose, Moment.js

WORK EXPERIENCE

The Finest Accessories, Inc., North Bend WA, *Systems Coordinator*
October 2018 - Present

- Utilized web development expertise to optimize the company's Shopify website, resulting in reduced bounce rate, and enhanced functionality.

- Applied JavaScript expertise to develop custom scripts in Google Sheets, automating system processes throughout the organization and enhancing interdepartmental communication.

- Employed strong problem-solving skills to maintain, enhance, and expand the company's tech stack, ensuring efficient and effective operations.
- Conducted thorough refinement, documentation, and communication of policies and procedures, promoting clarity and consistency across the organization.
- Delivered excellent internal technical support remotely and in person, assisting colleagues with their technical needs and troubleshooting issues.
- Demonstrated proficiency in setting up, configuring, troubleshooting, and enhancing workstations, enabling a productive and seamless working environment.

Weldon Barber, Redmond WA, *Store Administrator*
